2nd Quarter—2007

## Hebron Rebuilding Together helps homeowners fix their homes

The Hebron Rebuilding Together, formerly called Christmas is April, build day was held on Saturday, April 28th. Eight homeowners throughout Hebron welcomed over 50 volunteers into their homes to help them fix things up. There were many windows changed to help save on utility bills, roofing work, total room rehabilitation, bathroom repairs, kitchen repairs, wiring fixes, and landscaping.

The group, formed 4 years ago, received donations from many Hebron businesses and individuals to make this project happen, including: Nitco/Netnitco, Porter Hospital, .....

# Main Street Project Rolls On

Getting ready to place the new sewer pipe on a bed of gravel

Town Utility Operator Larry Melvin checks on the sewer line work on the new detention pond that is going in behind the Community Center. Here, the contractors are tapping in the new 8" Sewer Line that will clear the way for the pond to go in.

The new pond is on a truly grand scale. You can see the apartment building behind here, which should have some interesting new views in the next month. Waterfront property?

## What is a detention pond?

A detention pond is an area that is designed to temporarily hold a set amount of water while slowly draining to another location.

In our case, it will be to hold water after large rain events and slowly release it into our storm water system, which will improve the performance of the entire system and try to eliminate sewer backups near the sewer plant from too much water hitting it at once.

This photo shows only 75% of the width of the new pond. The Community Center is in the center background.
